## 9.12 Sludge Discharge Prevention and Contingency Plan

Saint Mary's has established a plan to identify and respond to any non-allowable discharge to storm drains or sanitary sewers on campus. The plan includes notification procedures and the treatment plants' phone numbers to be notified in the event of a non-allowable discharge by any person, including person(s) without affiliation to the College. Contact Public Safety immediately if you have knowledge of discharge to campus storm drains or sewers that may not be allowable.

**Applies to** – Anyone with access to a sanitary sewer or storm drain, including but not limited to all Facilities Services employees, scientific class room staff, art and theatrical department staff, and food services personnel.

**Training required** – Applicable employees are required to repeat this training every 36 months.

**Standards' location** – EH&S website, and hard copy in Facilities Services.
